**Subject:** Snow storm: West Vancouver dismal response  
**Importance:** High

Dear elected officials, representing the Citizens of West Vancouver at various level of government,

**To the Federal Government: where is the military to assist Canadians living in BC lower mainland dig out of this mess? How come Environment Canada did not forecast the first snow storm?**

**To the Provincial Government: where is the equipment, the supply of salt for residents? Salt shortage has been going on for now a week and as snow melts, ice is forming making streets dangerous.**

**To the Municipality: where is your equipment, the coordination of salt distribution to residents in secondary streets?**

**Only main roads are drivable and Ambleside is still a mess after 2 weeks. Snow plows block driveways...**

Or is it that blindly believing a 0.6c temperature rise over the next century excuses Governments for their unpreparedness?
