Subject: Floral Clock Water Feature

I notice that the clock function has been 'removed'. Since that was the main reason for its installation may I suggest that staff be requested to provide data on the annual cost of its upkeep and maintenance.

I still regret the loss of the sea view down 15th which resulted from the clock's installation and the associated hillock.

Since our municipality has limited resources, I'd like to propose that we study the savings from removing this floral clock and re-allocating the funds towards more usefull areas such as programs and facilities designed to provide activities for our teenagers.

Sincerely,

()
