Dear ():

RE: Giant Hogweed on Marine Drive

Thank you very much for your letter to Mayor and Council regarding the giant hogweed you spotted along Marine Drive. Your letter was referred to me for response.

Giant hogweed is a noxious weed and we make every effort to eradicate areas which are brought to our attention.

We rely on residents to report sightings of this invasive species and we act as quickly as possible once we are notified. I understand, as I write this letter, that the plants mentioned have now been removed along with several others in the vicinity and that you have sent a lovely thank you card to staff.

Taking the time to let us know about an issue and then taking time to thank staff is so very much appreciated.

Sincerely,

Anne Mooi
Director
Parks and Community Services

The Mayor and Council,

RE: Giant Hogweed

With alarm, while driving Marine Drive from 38th to 31st Street, I noticed giant hogweed blossoms and seedheads[almost ripe] invading the landscape and now spreading to the streets North of Marine Dr.[Sunset and Creery] also in flower with seedheads at the ready. Hopefully the entire Parks Dept. is not on holiday and could prevent further spread if they attend to this dangerous invasive weed immediately .

Sincerely

()

Thurs. 23 July

Dear Steve .

BRAVO - so pleased

to see no giant

hogweed along Marine

Dr..... etc. such speed!!

Many Thanks
