Subject: Ambleside Bird Refuge

Dear Mayor and Council

I would like to acknowledge with thanks and respect the completion of engineering at the east end of the pond. Special thanks are due Stephen Jenkins for this commendable effort to relieve the long-standing, pernicious stagnancy of pond waters, a long-awaited remedy in which much hope is now placed. There has already been favourable public comment.

I have not heard that anything will be done about fresh water flow at the north end of the pond. A short section of the Spirit Trail will be laid down on top of this long-neglected problem where, it is my understanding a daylighted bridge has been long recommended, due to the presence below of the GVRD sewer line.

Parks' management elsewhere at the pond is fragmented, lacking sustained interest and far from satisfactory. How could it be otherwise? There is no one holding the reins.

Yours sincerely
()
