Re: Development Variance Permit No. 09-044 for 6275 Taylor Dr.

August 30<sup>th</sup>, 2010

To whom it may concern,

We have resided at 6267 Taylor Drive for more than 15 years now.

6275 Taylor Drive is two doors past us, farther down the cul-de-sac.

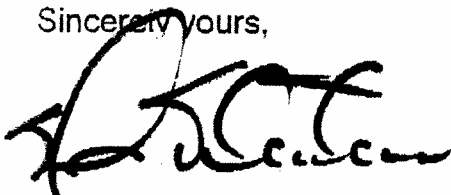

Given the very steep topography, we support granting a Variance Permit, to allow our neighbours to construct a garage on their property.

It may be worthwhile to note that our street is often among the last to be plowed, much to our chagrin given the very high taxes we all pay for living along the waterfront. On numerous occasions we have had to wait 3 or 4 days before a snowplow clears Taylor Drive. Having the street partially obstructed by parked vehicles may be detrimental to permit snow removal.

Forcing residents to park their cars on the street also creates unnecessary obstacles for garbage and recycling pickup. Most critically, given there is only one way in and out, it would be wise to ensure our street is kept as clear as possible to ensure there is no delay for ambulances, fire trucks and emergency response vehicles.

For all these reasons we believe it is in the best interest of the greater community to approve this Variance Permit.

Sincerely yours,

Michael Thornton

Roxanne Thornton
