FRONT (SOUTH WEST)

It is the Builder's responsibility to lay out & carry out the work as outlined in the contract documents. It is therefore necessary for the builder to pay very close attention to actual site dimensions, perimeter and conditions which may vary from those shown on the drawings.

Any discrepancies which the Builder discovers within the contract documents themselves or between the contract documents & site conditions, are to be discussed with the Designer immediately before proceeding with any work.

Written dimensions shall have precedence over scaled dimensions.
