DEMOLITION MATERIAL RECYCLING AND DISPOSAL INFORMATION AND RESOURCES

Metro Vancouver estimates the waste generation rates for demolitions of single-family homes at **547 kg/m² (111 lb/ft²)**.

Metro Vancouver Construction and Demolition Waste Composition by Weight

Metro Vancouver's Integrated Solid Waste and Resource Management Plan (the Plan) has set ambitious regional diversion goals, including the recovery of recyclable material from the construction and demolition (C&D) sector. Most C&D recycling in the region takes place at privately operated facilities regulated by Metro Vancouver. In support of the Plan, and pursuant to its Solid Waste Bylaw, Metro Vancouver requires privately operated facilities receiving construction and demolition waste to be licenced. The licences issued contain terms and conditions to ensure proper management of privately operated facilities.

To find a list of licensed facilities to take your material to, visit: metrovancover.org/swlicences

DEFINITIONS

"Disposal Facility" means a Facility that:

- (a) has a valid and subsisting permit, license, or operational certificate issued under GVS&DD's *Municipal Solid Waste and Recyclable Material Regulatory Bylaw No. 181, 1996* for the operation of a disposal facility regulated under that bylaw; or
- (b) is approved as a disposal facility under the Integrated Solid Waste and Resource Management Plan; or
- (c) destroys or landfills Waste or Recyclable Materials in the course of conducting an industry, trade, or business.

"Hazardous Materials" means any material, product, or substance regulated as a controlled product or hazardous waste under the B.C. *Workers Compensation Act* and B.C. *Environmental Management Act*, respectively, that is present on a site or is produced, originates, or results from work on the site.

"Recycling Facility" means a Facility, other than a Disposal Facility, that:

- (a) has a valid and subsisting permit, licence, or operational certificate issued under the GVS&DD's *Municipal Solid Waste and Recyclable Material Regulatory Bylaw No. 181, 1996* as amended for a Facility regulated under that bylaw; or
- (b) is required to provide information on quantities of received and transferred material to the GVS&DD through the GVS&DD's *Municipal Solid Waste and Recyclable Material Regulatory Bylaw No. 181, 1996* as amended; or
- (c) is approved as:
 - (i) a new organics processing facility; or
 - (ii) a publicly-owned transfer station,
 under the Integrated Solid Waste and Resource Management Plan for purposes other than Disposal; or
- (d) qualifies as a drop off depot which is owned or operated by a charitable organization registered under the *Income Tax Act* (Canada) or a non-profit organization to which section 149 of the *Income Tax Act* applies; or
- (e) qualifies as a Brokering Facility where the owner or operator purchases or otherwise pays valuable consideration for all Recyclable Material received, cleaned, sorted, baled or packaged at the Brokering Facility; or
- (f) accepts only asphalt and concrete for the purposes of reprocessing, resale and reuse; or
- (g) builds products using recycled or reused building materials or resells salvaged building materials under a valid business license.
